

# **Introducing ACCPAC Online**

## ACCPAC Online Overview

To remain competitive, mid-market businesses must harness and leverage the same cutting-edge technology as their larger counterparts. ACCPAC Online gives mid-market businesses the tools they need to compete in the New Economy — at a price they can afford.

You can benefit from ACCPAC Online whether you're a traditional business, an e-business, or a combination of the two. We host our industry-leading accounting, e-commerce, human resource management, and CRM solutions and provide access to leading office productivity solutions such as Microsoft Office. Your business benefits by receiving secure, dependable access to the latest technology — for a fraction of what it would cost to purchase hardware and software, implement network infrastructure, and maintain and upgrade these complex systems yourself. It's fast, it's easy, and it's affordable.

ACCPAC Online also offers your company unique scalability; our applications may be distributed regardless of location to any device running a Web browser. Your employees will feel comfortable using the familiar Web interface; when your company grows, you can simply add more applications and connect more users. ACCPAC Online makes it easy for you to utilize powerful advanced business applications anywhere today, and add advanced capabilities as you need them in the future.

### **Value, Value, Value**

The idea that you need to spend tens of thousands of dollars for cutting-edge technology is a thing of the past. By hosting your business applications at ACCPAC Online, you eliminate the upfront costs associated with purchasing, installing, and configuring specialized hardware and software. You also eliminate the long-term costs associated with staffing, maintaining, and upgrading your systems every time new technology is introduced.

Accessing your applications through ACCPAC Online gives your company a low-cost strategic advantage that's tough to beat, and that allows you to concentrate on your business — not on computer system problems.

### **Fast, Secure, Dependable**

ACCPAC Online offers a delivery infrastructure fortified by the power of Computer Associates' industry-leading enterprise management technologies. By harnessing Unicenter TNG's enterprise management capabilities, Jasmine's object-database technology, the agent-based pattern recognition capability of Neugents, and numerous other technologies recognized as industry standards, ACCPAC Online provides you with technology that ensures your access to hosted applications is fast, secure, and dependable.

Because we are so convinced that our technology is superior, we offer you service agreements that guarantee the availability and performance of the ACCPAC Online applications. This service agreement also ensures that the most up-to-date applications will always be available to you.

### **24/7 Support**

With ACCPAC Online, you can rest easy knowing that the staff supporting and managing your applications are ACCPAC-certified professionals — not just someone who claims to have had experience with your solution. These professionals have extensive ACCPAC support experience.

ACCPAC Online's support professionals will ensure that your applications and e-business solutions are up and running 24/7. This support staff will also be able to fix any network and systems problems which may occur and upgrade your applications without disrupting your business.

## **Get Started With ACCPAC Online**

When you subscribe to ACCPAC Online, you enable your entire company to access the information they need, anytime from anywhere. Our online applications provide you with the same power and flexibility that you've come to expect from ACCPAC in our boxed product, but with the added benefit of delivering our award-winning e-business solutions within an operating environment that has been optimized for performance, reliability and remote access.

Online applications subscriptions are paid periodically, usually monthly, however, discounts are available for prepaid subscriptions. The minimum term for online application subscriptions is two years, with shorter terms available for an additional fee.

## ACCPAC Advantage Series

ACCPAC Online provides complete hosting services for ACCPAC Advantage Series, a complete, multitier business management system. Simply trade-in your in-house, licensed ACCPAC or MISys software for a subscription to hosted Advantage Series and get up to a 50% Conversion Credit toward your initial subscription price. And, since the credit for comparable modules is based on today's list price regardless of the version you own, your conversion credit may be worth thousands more than you originally paid for your software!

For trade-in offer details and authorized pricing, please contact your Business Partner Account Manager or send an email request to [hosting.sales@accac.com](mailto:hosting.sales@accac.com)

### **ACCPAC eTransact**

**eTransact — the Complete Business-to-Everyone E-Commerce Solution.**

ACCPAC eTransact is a complete Web store solution that integrates closely and easily with ACCPAC End-to-End E-Business Solutions. This powerful package provides businesses with powerful business-to-business (B2B) and business-to-consumer (B2C) e-commerce capabilities in a single, robust, and easy-to-use business-to-everyone (B2E) solution.

eTransact makes your e-commerce transition easy by providing out-of-the-box integration with your ACCPAC accounting system, adaptability to the way you do business today, and flexible deployment options. And, of course, eTransact offers all the customization features you expect from a premier Web store solution.

**Easily build a Web store that plugs into your ACCPAC accounting solution.**

- Present the information you want, the way you want it, with user-definable synchronization between your Web store and your ACCPAC data.
- Authorize transactions from ACCPAC customers automatically and register new Web customers instantly.
- Access existing pricing, terms, and discounts for Web purchases made by established customers.
- Process Web orders automatically by interacting with ACCPAC Order Entry.
- Build your Web store fast using customizable Web store templates and themes.
- Create a unique look for your Web store using industry-standard tools.

## ACCPAC eCRM

ACCPAC Online provides complete hosting services for ACCPAC eCRM, an integrated sales, marketing, customer support and call center automation solution. Designed specifically for the new economy, ACCPAC eCRM is completely Internet and WAP enabled, providing users access anytime, anywhere via a Web browser or wireless device.

ACCPAC eCRM, part of the ACCPAC Online suite of end-to-end e-business management solutions, offers small and medium sized businesses a single portal to all customer information in a single place, while making the information easily accessible to everyone who requires access from the desktop, the Internet, or wireless device. “Out-of-the-box” integration with ACCPAC Advantage Series also gives authorized eCRM users efficient access to vital customer, partner and related transactional data. ACCPAC eCRM ensures that customers will have a personalized, consistent, and satisfying experience in every contact they have with the company—regardless of where they touch the company or what means of communication they use.

ACCPAC eCRM helps you better manage your business by integrating field sales, internal sales, customer care, and marketing information. The result is increased customer satisfaction, loyalty and dramatic increases in organizational efficiency, resulting in higher revenues and lower costs.

## ACCPAC HR Series

ACCPAC HR Series is a powerful, feature-rich human resource (HR) management solution that enables mid-sized enterprises to effectively collect, manage, calculate and report all employee data. Designed to help you better manage your human capital, HR Series keeps your staff on track with clear, concise information at their fingertips—calculated and reported in real time.

By automating the tracking of critical details—HR Series empowers your staff to effectively manage even the most complex HR requirements. Free from time-intensive

tasks relating to data management, your HR staff can concentrate on analyzing employee data and make informed decisions to help control costs, and focus on organizational development.

HR Series can significantly increase productivity and efficiency by reducing paperwork and manual input, and streamline your HR tasks. It automates almost every aspect of the HR process, including maintaining full compliance with government Human Resource Management requirements, such as COBRA administration and 401(k) management.

HR Series is simple to use, intuitively designed and offers maximum control over your HR information and requirements while reducing the administrative overhead and costs associated with managing your human resources. It is built to work the way people do—with screens and "Wizards" that lead non-technical users through data entry step-by-step.

HR Series fully integrates with ACCPAC Advantage Series and scales to meet the varied demands of mid-market enterprises. If you're looking to cut costs and maximize efficiency, there's no better way to manage your most important human resources than ACCPAC HR Series.
